HANDBOOK

COSMO
ALWAYS AT YOUR SERVICE

Waste management is a fundamental environmental issue for the future of our territory, and this is why Cosmo works every day to incentivise the residents of the Casale Monferrato municipality and encourage them to:

- separate waste more effectively
- produce less waste
- reuse and repurpose, where possible

Because even waste can be a resource.

All the guidelines for separating waste correctly are given as follows.

Paper

Always read the instructions for correct disposal given on the packaging. Dispose of paper foodstuff containers in the respective collection bins, even if dirty, after removing all solid and/or liquid food residue.

Plastic

Always read the instructions for correct disposal given on the packaging. Dispose of plastic and paper foodstuff containers in the respective collection bins, even if dirty, after removing all solid and/or liquid food residue.

Glass

Dispose of glass foodstuff containers in the respective collection bins, even if dirty, after removing all solid and/or liquid food residue and any corks, caps or lids.

Organic waste

Grass cuttings and trimmings **MUST NOT** be disposed of in the organic waste collection bin and must be taken to dedicated waste collection centres. Only biodegradable and/or compostable bags may be used in the organic waste collection bin. **DO NOT** use plastic bags.

KEY

- organic waste
- paper
- glass
- plastic
- non-recyclable waste
- collection bins for pharmaceuticals/collection bins for batteries/collection bins for clothing/collection bins for oils/return to authorised vendor/inter-municipal collection centre/bulky waste collection service/BAUlandia municipal dog shelter/

We can always do better:

- Read the labels on the bins and waste collection points to see what to throw away and where
- Download the Tabui app for more details and to discover the wonders that the territory around you has to offer.

COSMO IS

A highly effective agency operating permanently throughout this territory which offers a broad range of services through its skilled team to respond to the needs of both the affiliated municipalities and the private businesses in the area.

Specialised in environmental hygiene, Cosmo employs the most innovative systems available for the collection and treatment of municipal and similar waste.

The agency serves a user base of approximately 71,000 residents.

The primary functions of the agency are the collection, transport, reclamation and treatment of urban waste produced in the affiliated municipalities, the organisation and management of segregated waste collection and treatment, and all activities instrumental in the aforementioned functions, such as: the transport and treatment of waste, the operation of experimental systems, the storage of hazardous urban waste, the collection and treatment of both hazardous and non-hazardous special waste, and the management of landfill sites, during construction, operation and post-operation, once the site has reached capacity and has been decommissioned.

THE AGENCY PROVIDES THE FOLLOWING SERVICES AND ACTIVITIES:

- Waste recovery and treatment service for the 44 affiliated municipalities
- Waste collection service for the 44 affiliated municipalities
- Segregated waste collection service for the 44 affiliated municipalities
- Stray dog capture and shelter service for the 44 affiliated municipalities
- Manual sweeping service for the streets and squares of the city of Casale Monferrato and the Moncalvo municipality
- Mechanised street sweeping service for Casale Monferrato
- Environmental monitoring service
- Management and collection of municipal levies on advertisements, duty on public billboards, and levies on the usage of public spaces and areas for a number of affiliated municipalities

Other services are also provided, albeit to a lesser extent, on request for private entities.

Cosmo S.p.A. is registered in the Alessandria Business registry and the National Registry of Environmental Management Operators.
